STUDY ABROAD - 2 weeks

**ACHIEVE**

ONLINE - 2 weeks

# COMPONENTS

## 1. DIGITAL LEARNING

Our powerful online platform is at the heart of the Fusion experience. This will be your digital classroom as you study, interact and progress towards fluency. Its features:

### LEARN ANYTIME, ANYWHERE

You can easily access the platform anytime from your phone, computer or any internet-connected device. Your progress is synced and saved everywhere.

### SMART, ADAPTIVE TECHNOLOGY

The system adapts and teaches you according to your language level and ongoing personal performance.

### ENGAGING, AUTHENTIC CONTENT

Content is updated daily from the real world, including news articles from top publishers, photos, videos, conversations, popular music and more. Learn the authentic language that native speakers use every day.

### WIDE CHOICE OF THEMES

Learning on the Fusion platform is highly effective and intrinsically motivating, as you learn within subjects that are relevant to you and your interests.

### VARIETY OF ACTIVITIES

Each unit is made up of a series of lessons, accompanied by various activities that help you practise each skill. You will gain a rounded understanding of the language, while remaining engaged and motivated.

### GRAMMAR GUIDE

This easy-to-use section gives simple descriptions and examples of grammar concepts. If you are lacking in confidence in any area of grammar, you can also review as much as you want here.

### WORD BANK

All of your new vocabulary is stored here. For every new word or phrase you come across, you can view the definition and part of speech, see an example and listen to the pronunciation.

### REAL-TIME INTERACTION

Fusion offers a smooth platform for live face-to-face interaction. Schedule your own sessions with ease, and practise your conversation skills with teachers and other students in comfort, no matter where you are in the world.

### PREPARATION FOR STUDY ABROAD

To prepare you for your Full Immersion experience, special online sessions will introduce you to your chosen destination and the EC staff you will meet there.

### LIVE PROGRESS TRACKING

You will have access to metrics throughout, giving detailed insight into how you are performing in grammar, vocabulary, listening, writing and reading. Use this information to guide your self-study, and ask your tutor to focus on these areas too.

### OFFICIAL ASSESSMENT TESTS

These will test your grammar, reading, listening and speaking skills, and will diagnose where you need to focus and practise most. You will be assessed four times throughout your journey: at the start, before the Full Immersion stage, at the completion of the 12-week programme, and towards the end of the 52 weeks.

## 2. FACE-TO-FACE LEARNING

You will be accompanied and supported by real people throughout your journey with us, to keep you engaged and activate your language skills in authentic situations. Here's how:

### FULL IMMERSION IN THE DESTINATION OF YOUR CHOICE

While the language acquisition takes place during the online stage, you will apply and activate this learning during the Full Immersion stage, by interacting with the communities within your chosen destination.

During this period, you will benefit from a total of 30 hours of face-to-face classroom learning, and you will meet and network with students from around the world.

You will also have full access to a varied social and cultural activity programme, as well as free language workshops that also take place outside of classroom hours.

If you choose our Executive English programme, you will also be guided through a highly targeted experience during this time, including authentic interaction within the local business community, to complement your classroom study.

You may choose to book EC student accommodation, which would provide you with more opportunity to practise your language skills with other like-minded students.

### VIRTUAL TUTORING

In the eight weeks leading up to your Full Immersion experience, you will have two 45-minute group sessions per week, with other students from the same level, programme and destination.

Ahead of each session you will be directed to specific online lessons to complete, which will provide the theme. The sessions are led by an EC teacher and are conversation-based to focus on your speaking skills.

During the first eight weeks of the programme, you will also have a 30-minute one-to-one session with an EC teacher of your choice each week.

You may focus this private time on anything you would like help with. When you have chosen your teacher, just send them a note along with your booking. You will also receive personal feedback after your session.

You may purchase additional virtual tutoring to supplement your learning.

### YOUR STUDENT GROUP

You will be placed in a group with other Fusion students of the same language level as you, who will also be studying abroad in the same destination.

You and your student group will go through your learning journey together. You will have the opportunity to meet the students who you studied with online in the Full Immersion stage of your course.

After the Full Immersion stage, you can keep in touch with other Fusion alumni, reflect and share your experiences together.

### EC STAFF AND TUTORS

All our teachers are highly qualified and specifically trained. Read through the profiles online and choose the teacher whose specialisms and availability suit you.

From booking to completion, your Academic Experience Manager will be on hand to answer any questions you may have and support you on your Fusion journey.
